## SOUTH CAROLINA BIBLIOGRAPHIES • NO. 3A

### A CHECKLIST OF SOUTH CAROLINA STATE PUBLICATIONS

*Issued during the Fiscal Year July 1, 1950—June 30, 1951*

COMPILED BY THE HISTORICAL COMMISSION

---

This is the first number of what it is hoped may be made an annual short-title checklist of the publications of the various agencies of the South Carolina state government. The preparation of the list has been undertaken by the Historical Commission at the request of the South Carolina Council for the Social Studies. For the present it will be included in the Commission's series entitled South Carolina Bibliographies.

Finding that no library is receiving promptly all of the state publications, the Commission found it necessary to appeal for assistance directly to the publishing agencies. (continued on the last page)

They have generously responded with what they understood was the information desired. Wherever it was necessary and the search could be made without great loss of time, this information has been supplemented with details obtained by an examination of the publications themselves. It is hardly to be hoped, however, that the list is either complete or entirely accurate. An appendix will therefore be provided in the next number for omissions, and, as far as possible, errors will be corrected.

The publications have been listed alphabetically according to the name of the publishing agency, the name in each case being that which appears in the publication. If available, the following data have been given for each item: short-title; name of the personal author, or editor, if any; volume and number, if a serial; date of publication; nature of the print (whether letterpress or processed); number of pages; and price, if any. If the price could not be obtained, this fact is indicated by a question mark.

Orders for the publications of the General Assembly and for the Acts should be addressed to the State Library. All others are distributed by the publishing agencies. In general, those for which no price is indicated are free; but in most cases the number of copies is limited. The state agencies are therefore seldom able to supply copies in large quantities.

The list for this number was compiled by Lowry P. Ware, and the copy was prepared for lithoprinting by Mary B. Crawford, both members of the Historical Commission staff.
